UNPREPARED

1. [Very 1st day. I'm still feeling it out and I've been told acceptance rate means absolutely nothing \(good\) My question is about the "On time" my very 1st order I had to wait for them to make. Which made me late for the drop off. Will that late hurt me in anyway shape or form?](#)

21. [Is it normal for an order that you have to pay with a red card to end up being a larger total than what the app says? I ordered exactly what they wanted and even before tax it was more, it came out to be \\$16.17 instead of \\$12.09](#)
